

Make KMVT 15's Benefit Bar page your homepage, and Benefit Bar will donate to us!!

Benefits for you and KMVT 15:

Benefit Bar will make a donation to KMVT 15 every time someone makes <http://client.benefitbar.com/a2063> their homepage, takes a Benefit Bar survey, or does a search through Benefit Bar and clicks on a paid ad. Their merchants (such as Banana Republic, 24 Hour Fitness, and Bath and Body Works) also offer 30,000 daily discounts that you can take advantage of, so it helps you too! (You can find these discounts by clicking on Activities on our Benefit Bar page, then Savings. A page with a list of their vendors will appear, and you can click on the coupons next to any of these companies.) Thank you so much for your support. Through these donations, we can continue to provide educational workshops, camps, and studio tours to youth and adults and televise local sports and town hall meetings in the Silicon Valley.

How to change your homepage:

If you are a Mac user, simply go to <http://client.benefitbar.com/a2063>, click on the "Click here to make us your homepage button" and follow the instructions.

If you are a PC user, the directions are a little more complicated, so we have broken them down for you here:

For Internet Explorer:

- 1) Click on your Internet Explorer icon.
- 2) Click on "Tools" on the toolbar at the top of your browser, then "Internet Options."
- 3) At the top of the pop-up, you'll see a "Home Page" box. Type <http://client.benefitbar.com/a2063> into that box, and press apply and then OK.

For Firefox:

- 1) Click on your Firefox icon.
- 2) Click on "Tools" on the toolbar at the top of your browser, then Options.
- 3) The pop-up window will open up with the default option of General. At the top of the window, you'll see "Home Page Locations." Type in <http://client.benefitbar.com/a2063> into that box and press OK.

For Google Chrome:

- 1) Click on your Chrome icon.
- 2) Click Options, then Basics.
- 3) Select that you want your home page to be the page that automatically starts up when you initially open Google Chrome. Make this that address: <http://client.benefitbar.com/a2063>. Press OK.
